### PORTFOLIO

[www.stefanmarjanov.com/portfolio](http://www.stefanmarjanov.com/portfolio)

My name is Stefan, student / freelancer / blogger / web designer from Serbia.

For about 8 years I've been creating web sites because it's a job I love and what I do with passion.

I had the opportunity to work alone, in a team, in a company, for domestic and foreign clients. I meet a lot of influential people on the Internet, and from all that I gained a lot of experience.

Zrenjanin, Serbia
